## Upper Endoscopy Overview

The purpose of this procedure is to directly visualize the lining of the esophagus, stomach, and duodenum in order to carefully inspect for disease. The principle risk of EGD is the remote possibility of perforation. Immediately prior to the passage of the instrument you may be given intravenous Demerol, Versed, or Propofol. **If you are allergic to any of these, latex or eggs, please notify the scheduler.** The risks of sedation will be discussed with you at the facility by the administering physician.

## Labs

Please have any ordered bloodwork drawn \_\_\_\_\_ days before your procedure.  
A lab requisition for your bloodwork will be provided, if necessary.

Females of menstruating years will be required to provide a urine specimen when you arrive at the facility.

---

## Cancellation Policy

- No fee will be assessed if the procedure is rescheduled within 3 business days.
- Procedures rescheduled beyond 3 days of the original date will be charged a \$50 fee.
- Cancellations that occur after 3 days will be charged a \$100 fee.
- Reschedule and cancellation fees must be paid prior to rescheduling.

---

## Billing Procedure

There may be up to four charges associated with your procedure for Physician, Hospital/Facility, Anesthesia, and Lab. Please verify with your insurance carrier your benefit coverage for each.
